1 Periksa oli mesin

2 Putar ke posisi ON

3 Geser Choke ke ON/OFF

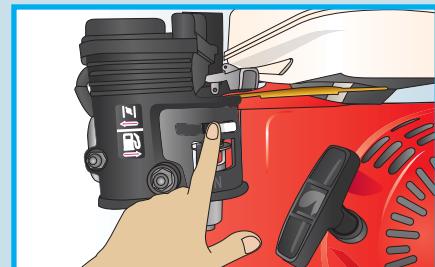

4 Geser tuas bahan bakar ke ON

5 Hidupkan

6 Geser Choke ke OFF

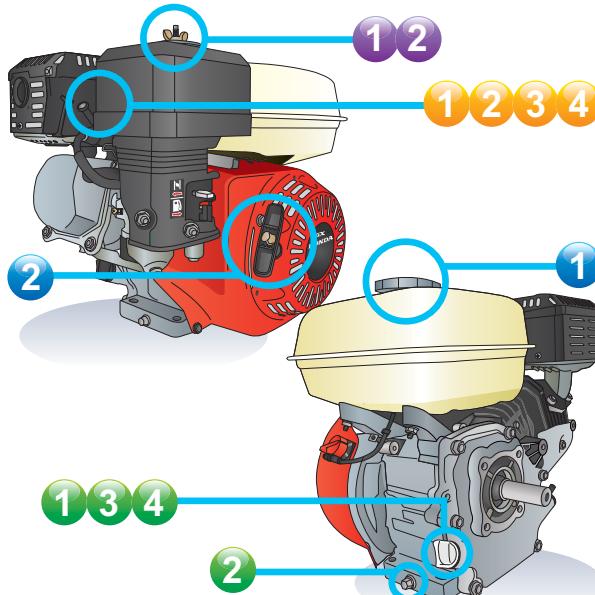

Jadwal Perawatan : Periksa : Ganti : Bersihkan : Periksa-Sete

Jadwal Perawatan Rutin	Sebelum dipakai	1 Bulan pertama atau 20 jam	Setiap 3 Bulan atau 50 Jam	Setiap 6 Bulan atau 100 Jam	Setiap Tahun atau 300 Jam
Oli Mesin					
Filter Udara				*	
Busi					
Spark arrester (tipe yang tersedia)					
Cangkir penyaring Bahan bakar					
Putaran rendah mesin					
Kerenggangan Kutub		Bawa mesin ke Dealer Servis Honda.			
Ruang Pembakaran			Setiap 500 jam		
Tangki & filter					
Saluran bensin				Setiap 2 tahun	

* Bersihkan filter udara bila digunakan di daerah berdebu setiap 10 jam atau setiap hari

Busi

- The diagram consists of four numbered steps:

 - Step 1: A hand uses a blowtorch to heat the top of a fuel filter assembly. A blue arrow indicates the direction of heat application.
 - Step 2: The heated filter is twisted and pulled apart, with a blue arrow indicating the direction of separation. An inset shows the two disconnected halves.
 - Step 3: A hand uses a wire brush to clean the metal components of the filter.
 - Step 4: The cleaned filter is reassembled and secured with a clamp, with a blue arrow indicating the direction of clamping.

► Penyimpanan lama

- The image shows a three-step guide for starting a Honda generator:

 - Step 1:** Filling the fuel tank. A hand is shown pouring fuel from a grey container into the red generator's fuel tank. An orange arrow points from the fuel container into the tank.
 - Step 2:** Starting the engine. A hand is shown pulling the black recoil start cord. The word "Nyalakan" is written in red at the bottom of the circle, with an orange arrow pointing towards the start cord. Above the main image, there is a small white circle containing a black close-up of the recoil start mechanism.
 - Step 3:** The generator running. The red Honda generator is shown from a side-on perspective, with three orange arrows pointing away from it, indicating it is running. A small black image of the generator is also shown on a stand with a smiling face.
